FEDERATION PROCEEDINGS

VOLUME 45, 1986

PUBLICATIONS COMMITTEE

FINN WOLD, *Chairperson*
FRANKLIN P. INMAN[1,2]
JOSEPH J. MCPHILLIPS[2]
ROBERT W. KRAUSS, *ex officio*
RICHARD M. FORBES
L. R. JOHNSON
ROBERT E. STITZEL[1]
BARRY R. BLOOM, *ex officio*[1]
MICHAEL M. GOTTESMAN[1]
RICHARD MCINTOSH[2]
F. STEPHEN VOGEL
A. E. HARPER, *ex officio*[2]

EDITORIAL BOARD

WILLIAM J. WHELAN, *Editor-in-Chief*
JORGE E. ALLENDE
FRANCISCO BOLIVAR
GEORGE F. CAHILL, JR.
KERMIT L. CARRAWAY
MARK L. ENTMAN
L. ROSS HACKLER[2]
LUCILLE S. HURLEY
DONALD M. MARCUS
PHILIPPA MARRACK
HOWARD E. MORGAN
TOSHIO NARAHASHI
EMANUEL RUBIN
FRANK H. RUDDLE
ALAN N. SCHECHTER
BARRY SHANE
EARL R. STADTMAN
ROBERT E. STITZEL

[1]Term began July 1, 1986
[2]Term ended June 30, 1986

JUDITH B. GANDY, *Executive Editor*
KENDALL SITES, *Copy Editor*

FEDERATION OF AMERICAN SOCIETIES FOR EXPERIMENTAL BIOLOGY
9650 Rockville Pike Bethesda, MD 20814

Contents of Volume 45

Number 1. JANUARY 1986

FEDERATION NEWS . . . 1

SYMPOSIUM

Response to Acute Lung Injury

Chaired by *P. M. Henson*

Lung vascular injury induced by chemotactic factors: enhancement by bacterial endotoxins. *G. S. Worthen, C. Haslett, L. A. Smedly, A. J. Rees, R. S. Gumbay, J. E. Henson, and P. M. Henson* 7
Systemic complement activation and acute lung injury. *G. O. Till and P. H. Ward* 13
Endotoxin-mediated pulmonary endothelial cell injury. *B. O. Meyrick* 19
Adult respiratory distress syndrome: causes, morbidity, and mortality. *T. M. Hyers and A. A. Fowler* 25

SYMPOSIUM SUMMARY

Transport and metabolism of vitamins. *R. C. Rose, D. B. McCormick, T.-K. Li, L. Lumeng, J. G. Haddad, Jr., and R. Spector* 30

SYMPOSIUM

Effects of Aging on Adrenergic Receptors

Chaired by *J. Roberts and G. M. Steinberg*

Introduction. *J. Roberts and G. M. Steinberg* 40
Animal resources available from the National Institute on Aging. *R. L. Sprott* 42
Animal models in aging research. *C. Chrisp* 43
Effects of aging at the adrenergic cardiac neuroeffector junction. *P. B. Goldberg, M. S. Kreider, M. R. McLean, and J. Roberts* . . . 45
Physiological and molecular correlates of age-related changes in the human β-adrenergic receptor system. *R. D. Feldman* 48
Decreased β-adrenergic responsiveness during senescence. *P. J. Scarpace* 51
Regulation of brain adrenergic receptors during aging. *L. H. Greenberg* 55
Effects of aging on mechanisms of α-adrenergic and dopaminergic action. *G. S. Roth* 60

Number 2. FEBRUARY 1986

FEDERATION NEWS . . . 65

THEME PREVIEWS . . . 72

SYMPOSIUM

Role of the Endothelial Cell in the Regulation of Microvascular Permeability to Molecules

Chaired by *G. J. Grega*

Introductory remarks. *G. J. Grega* 75
Modulation of solute permeability in microvascular endothelium. *C. Crone* 77
Contractile elements in the regulation of macromolecular permeability. *F. N. Miller and D. E. Sims* 84
Evidence for endothelial cell-mediated regulation of macromolecular permeability by postcapillary venules. *E. Svensjö and G. J. Grega* . 89
Physiological and pharmacological evidence for the regulation of permeability. *G. J. Grega, S. W. Adamski, and D. E. Dobbins* . . . 96
The endothelial surface and responses to injury. *U. S. Ryan* 101
Neutrophil-dependent mediation of microvascular permeability. *R. E. Lewis and H. J. Granger* 109

SYMPOSIUM SUMMARIES

Loaded breathing: load compensation and respiratory sensation. *M. D. Altose and F. W. Zechman, Jr.* 114
Role of vanadium in biology. *B. R. Nechay, L. B. Nanninga, P. S. E. Nechay, R. L. Post, J. J. Grantham, I. G. Macara, L. F. Kubena, T. D. Phillips, and F. H. Nielsen* 123

SYMPOSIUM

Effects of Nutritional Factors on Xenobiotic Metabolism and Disposition

Chaired by *P. M. Newberne and S. T. Omaye*

Effects of diet on toxicity testing. *S. T. Omaye* 133
Nutritional factors in lung, colon, and prostate carcinogenesis in animal models. *R. Kroes, R. B. Beems, M. C. Bosland, G. S. J. Bunnik, and E. J. Sinkeldam* 136
Nutritional parameters that alter hepatic drug metabolism, conjugation, and toxicity. *W. R. Bidlack, R. C. Brown, and C. Mohan* . . 142
Nutrient influences on toxicity and carcinogenicity. *P. M. Newberne and M. W. Conner* 149

Number 3. MARCH 1, 1986

Abstracts of papers presented at the Federation Annual Meeting 155

Number 4. MARCH 5, 1986

Abstracts of papers presented at the Federation Annual Meeting 737

Number 5. APRIL 1986

NEWS . . . 1381

BOOKS RECEIVED . . . 1382

SYMPOSIUMS

Neural and Endocrine Regulation of Ingestive Behavior

Chaired by *M. Dallman*

Introduction. *M. Dallman and G. A. Bray* 1383
The stomach, cholecystokinin, and satiety. *P. R. McHugh and T. H. Moran* 1384
Satiety: the roles of peptides from the stomach and the intestine. *J. Gibbs and G. P. Smith* 1391

Brain monoamines and peptides: role in the control of eating behavior. *S. F. Leibowitz* 1396
Autonomic and endocrine factors in the regulation of energy balance. *G. A. Bray* 1404

Physiological Role of the Intrarenal Renin-Angiotensin System

Chaired by *L. G. Navar*

Introductory comments. *L. G. Navar* 1411
Localization of components of the renin-angiotensin system within the kidney. *T. Inagami, M. Kawamura, K. Naruse, and T. Okamura* 1414
Angiotensin II receptors in the kidney. *F. A. O. Mendelsohn, M. Dunbar, A. Allen, S. T. Chou, M. A. Millan, G. Aguilera, and K. J. Catt* 1420
Role of the renin-angiotensin system in tubuloglomerular feedback. *J. Schnermann and J. Briggs* 1426
Regulation of glomerular filtration rate and sodium excretion by angiotensin II. *J. E. Hall* 1431
Contribution of angiotensin to the control of medullary hemodynamics. *S.-Y. Chou, P. F. Faubert, and J. G. Porush* . . . 1438
Effects of angiotensin on proximal tubular reabsorption. *V. L. Schuster* 1444
Effects of locally formed angiotensin II on renal hemodynamics. *L. G. Navar, L. Rosivall, P. K. Carmines, and S. Oparil* 1448

Skeletal Muscle Fiber Regeneration following Injury

Chaired by *J. A. Faulkner and B. M. Carlson*

Skeletal muscle regeneration: a historical perspective. *J. A. Faulkner and B. M. Carlson* 1454
Regeneration of entire skeletal muscles. *B. M. Carlson* 1456
Morphological aspects of muscle fiber regeneration. *M. Ontell* . . . 1461
Functional deficits in skeletal muscle grafts. *J. A. Faulkner and C. Côté* 1466
Adaptations of skeletal muscle grafts to chronic changes of physical activity. *T. P. White* 1470

SYMPOSIUM SUMMARY

Interrelationships between zinc and immune function. *P. J. Fraker, M. E. Gershwin, R. A. Good, and A. Prasad* 1474

Number 6. MAY 1986

Abstracts of papers presented at the Annual Meeting of the American Society of Biological Chemists 1481

Number 7. JUNE 1986

FEDERATION NEWS . . . 2045

NEWS . . . 2045

BOOKS RECEIVED . . . 2046

SYMPOSIUMS

Blood-Brain Transport of Nutrients

Chaired by *W. M. Pardridge*

Introduction. *W. M. Pardridge* 2047
Transport of ions across the blood-brain barrier. *A. L. Betz* 2050
Transport of essential nutrients across the blood-brain barrier of individual structures. *R. A. Hawkins* 2055
Blood-brain barrier transport of the α-keto acid analogs of amino acids. *R. D. Steele* 2060
Nutrient transport and the blood-brain barrier in developing animals. *E. M. Cornford and M. E. Cornford* 2065
Neutral amino acid transport at the human blood-brain barrier. *W. M. Pardridge and T. B. Choi* 2073

Atrial Natriuretic Factors I and II

Chaired by *H. Sonnenberg and T. Maack*

Introductory remarks. *T. Maack and H. Sonnenberg* 2079
Atrial natriuretic factor: an overview. *A. J. de Bold* 2081
Cloning, sequence analysis, and processing of the rat and human atrial natriuretic peptide precursors. *J. A. Lewicki, B. Greenberg, M. Yamanaka, G. Vlasuk, M. Brewer, D. Gardner, J. Baxter, L. K. Johnson, and J. C. Fiddes* 2086
Conversion factors of high- to low-molecular-weight forms of atrial natriuretic factor. *N. C. Trippodo, A. Januszewicz, F. E. Cole, A. A. MacPhee, B. L. Pegram, and M. B. Kardon* 2091
Atriopeptin biochemical pharmacology. *P. Needleman* 2096
Atrial natriuretic factor: radioimmunoassay and effects on adrenal and pituitary glands. *J. Gutkowska, K. Horký, E. L. Schiffrin, G. Thibault, R. Garcia, A. De Léan, P. Hamet, J. Tremblay, M. B. Anand-Srivastava, P. Januszewicz, J. Genest, and M. Cantin* 2101
Mechanisms of release and renal tubular action of atrial natriuretic factor. *H. Sonnenberg* 2106
Cardiovascular effects of atrial natriuretic extract in the whole animal. *U. Ackermann* 2111
Effects of atrial natriuretic factor on blood pressure and the renin-angiotensin-aldosterone system. *S. A. Atlas, M. Volpe, R. E. Sosa, J. H. Laragh, M. J. F. Camargo, and T. Maack* 2115
Effects of atrial natriuretic factor on renal function and cyclic GMP production. *E. H. Blaine, A. A. Seymour, E. A. Marsh, and M. A. Napier* 2122
Renal hemodynamic and natriuretic effects of atrial natriuretic factor. *T. Maack, S. A. Atlas, M. J. F. Camargo, and M. G. Cogan* . 2128

SYMPOSIUM SUMMARY

Neuromodulators and transmitters in respiratory control. *I. R. Moss, M. Denavit-Saubié, F. L. Eldridge, R. A. Gillis, M. Herkenham, and S. Lahiri* 2133

MINISYMPOSIUM

Leukocyte Stimulation: Receptor, Membrane, and Metabolic Events

Chaired by *E. L. Becker*

Introduction and summary. *E. L. Becker* 2148
Pertussis toxin as a probe of neutrophil activation. *E. L. Becker, J. C. Kermode, P. H. Naccache, R. Yassin, J. J. Munoz, M. L. Marsh, C.-K. Huang, and R. I. Sha'afi* 2151
Dual role for guanine nucleotides in stimulus-secretion coupling. *B. D. Gomperts, M. M. Barrowman, and S. Cockcroft* 2156

Number 8. JULY 1986

FEDERATION NEWS . . . 2163

BOOKS RECEIVED . . . 2164

SYMPOSIUM SUMMARY

Interorgan transport. *H. N. Christensen, N. P. Curthoys, G. E. Mortimore, R. J. Smith, L. Goldstein, and A. E. Harper* 2165

SYMPOSIUMS

Advances in Antiarrhythmic Drug Therapy—Changing Concepts

Chaired by *H. R. Kaplan*

Introduction. *H. R. Kaplan* 2184
Antiarrhythmic drugs and the modulation of autonomic control of heart rate in rabbits. *V. S. Murthy and T.-F. Hwang* 2186
Neurochemical approaches to the prevention of ventricular fibrillation. *R. L. Verrier* 2191
Preclinical assessment of antiarrhythmic drugs. *B. R. Lucchesi and J. J. Lynch* 2197
Antiarrhythmic drug therapy: new drugs and changing concepts. *H. J. Reiser and M. E. Sullivan* 2206
Current clinical perspectives on antiarrhythmic drug therapy. *J. L. Anderson* 2213

Sulfate Conjugation of Neurotransmitters and Drugs

Chaired by *R. M. Weinshilboum*

Introduction. *R. M. Weinshilboum* 2220
Phenol sulfotransferase in humans: properties, regulation, and function. *R. M. Weinshilboum* 2223
Kinetics of sulfation in the rat in vivo and in the perfused rat liver. *G. J. Mulder* 2229
Sulfate conjugation in drug metabolism: role of inorganic sulfate. *G. Levy* 2235
Determination of sulfated biogenic amines: emphasis on dopamine sulfate isomers. *M. A. Elchisak* 2241
Amine sulfate formation in the central nervous system. *G. M. Tyce, J. M. Messick, T. L. Yaksh, D. E. Byer, D. R. Danielson, and D. K. Rorie* 2247
Role of sulfate conjugation of catecholamines in blood pressure regulation. *O. Kuchel, N. T. Buu, K. Racz, A. De Léan, O. Serri, and J. Kyncl* 2254

CONFERENCE

Uptake and Transport of Nitrogenous Compounds by the Ruminant Gastrointestinal Tract

Chaired by *G. B. Huntington*

Introduction. *G. B. Huntington* 2260
Uptake and fate of absorbed amino acids and peptides in the mammalian intestine. *D. H. Alpers* 2261
Amino acid and peptide absorption from the gastrointestinal tract. *K. E. Webb, Jr.* 2268
Uptake and transport of nonprotein nitrogen by the ruminant gut. *G. B. Huntington* 2272
Splanchnic and peripheral uptake of amino acids in relation to the gut. *E. N. Bergman* 2277

Number 9. AUGUST 1986

FEDERATION NEWS . . . 2283

NEWS . . . 2283

LSRO REPORT

Influence of space flight on red blood cells. *J. M. Talbot and K. D. Fisher* 2285

SYMPOSIUM SUMMARY

Biosynthesis and secretion of transport proteins: interstitial and serum retinol-binding proteins, transthyretin, transferrin, serum albumin, and extracellular sex steroid-binding proteins. *C. D. B. Bridges, T. Peters, Jr., J. E. Smith, D. S. Goodman, S.-L. Fong, M. D. Griswold, and N. A. Musto* 2291

SYMPOSIUMS

Neurobiology of Mammalian Magnocellular Neurosecretory Neurons

Chaired by *L. P. Renaud*

Introduction. *L. P. Renaud* 2304
Intrinsic membrane properties of magnocellular neurosecretory neurons recorded in vitro. *R. D. Andrew* 2306
Neuropharmacology of supraoptic nucleus neurons: norepinephrine and γ-aminobutyric acid receptors. *J. C. R. Randle, T. A. Day, J. H. Jhamandas, C. W. Bourque, and L. P. Renaud* 2312
Arginine vasopressin as a central neurotransmitter. *C. L. Riphagen and Q. J. Pittman* 2318
Hypothalamic dynorphin and vasopressin mRNA expression in normal and Brattleboro rats. *T. G. Sherman, O. Civelli, J. Douglass, E. Herbert, S. Burke, and S. J. Watson* 2323
Plasticity in the hypothalamic magnocellular neurosecretory system. *G. I. Hatton* 2328

Subtypes of α Adrenoreceptors in Systemic and Pulmonary Vascular Beds

Chaired by *A. L. Hyman and P. M. Vanhoutte*

Introduction. *A. L. Hyman* 2334
Nature of α_1 and postjunctional α_2 adrenoceptors in the pulmonary vascular bed. *A. L. Hyman, H. L. Lippton, and P. J. Kadowitz* . . 2336
Spare α adrenoceptors in the peripheral circulation: excitation-contraction coupling. *R. R. Ruffolo, Jr.* 2341
Effects of temperature on α adrenoceptors in limb veins: role of receptor reserve. *P. M. Vanhoutte and N. A. Flavahan* 2347
The α adrenoceptors on endothelial cells. *J. A. Angus, T. M. Cocks, and K. Satoh* 2355

Atrial Natriuretic Factor

Chaired by *E. H. Blaine*

Introduction. *E. H. Blaine* 2360
Atriopeptins in fluid and electrolyte homeostasis. *D. Schwartz, N. C. Katsube, and P. Needleman* 2361
Molecular characteristics of receptors for atrial natriuretic factor. *R. L. Vandlen, K. E. Arcuri, L. Hupe, M. E. Keegan, and M. A. Napier* 2366
Possible mechanisms underlying the vasorelaxant response to atrial natriuretic factor. *R. J. Winquist* 2371
Inhibition of aldosterone synthesis by atrial natriuretic factor. *M. E. Elliott and T. L. Goodfriend* 2376
Hemodynamic effects of atrial natriuretic hormone. *B. L. Pegram, N. C. Trippodo, T. Natsume, M. B. Kardon, E. D. Frohlich, F. E. Cole, and A. A. MacPhee* 2382
Contrasting views on the actino of atrial peptides: lessons from studies of conscious animals. *M. Gellai, D. E. Allen, and R. Beeuwkes III* 2387

Nutrient-Genome Interaction

Chaired by *C. E. Castro and H. C. Towle*

Introduction. *C. E. Castro and H. C. Towle* 2392
Diet-mediated alteration of chromatin structure. *C. E. Castro, J. Armstrong-Major, and M. E. Ramirez* 2394
Regulation of the gene for fatty acid synthase. *A. G. Goodridge* . . 2399

Regulation of hepatic gene expression by lipogenic diet and thyroid hormone. *H. C. Towle and C. N. Mariash* 2406
The albumin gene: DNA-protein interaction. *J. S. Sevall* 2412

Number 10. SEPTEMBER 1986

NEWS . . . 2417

SUBSCRIPTION RATES . . . 2418

SYMPOSIUM

Biomedical Aspects of World Famine

Chaired by *B. R. Bloom*

Introduction. *B. R. Bloom* 2419
Consequences of hunger for individuals and societies. *N. S. Scrimshaw* 2421
Prediction and prevention of famine. *J. W. Mellor* 2427
New technology and its role in enhancing global food production. *R. M. Goodman* 2432

SYMPOSIUM REPORT

Amino acid transport in eukaryotic cells and tissues. *M. S. Kilberg* . 2438

SYMPOSIUM SUMMARY

Neuroendocrine mechanisms of plasma volume regulation. *S. L. Bealer, F. J. Haddy, J. N. Diana, G. J. Grega, R. D. Manning, Jr., J. C. Rose, and D. S. Gann* 2455

SYMPOSIUMS

Free Radical Metabolites of Toxic Chemicals

Chaired by *R. P. Mason*

Introduction. *R. P. Mason* 2464
Benzidine: mechanisms of oxidative activation and mutagenesis. *P. D. Josephy* 2465
Free radical metabolism of antiparasitic agents. *R. Docampo and S. N. J. Moreno* 2471
An electron spin resonance study of free radicals from catechol estrogens. *B. Kalyanaraman, P. Hintz, and R. C. Sealy* 2477
Sonochemical free radical formation in aqueous solutions. *P. Riesz and C. L. Christman* 2485
Free radicals of acetaminophen: their subsequent reactions and toxicological significance. *R. P. Mason and V. Fischer* 2493

Placental Transport of Nutrients

Chaired by *H. N. Munro*

Role of the placenta in ensuring fetal nutrition. *H. N. Munro* . . . 2500
Fetal nutrition: supply, combustion, interconversion, and deposition. *J. J. Faber and K. L. Thornburg* 2502
Placental transport and utilization of amino acids and carbohydrates. *F. C. Battaglia* 2508
Role of uteroferrin in transplacental iron transport in the pig. *R. M. Roberts, T. J. Raub, and F. W. Bazer* 2513
Placental metabolism and transport of lipid. *R. A. Coleman* 2519
Cholecalciferol and placental calcium transport. *G. E. Lester* 2524

Number 11. OCTOBER 1986

FEDERATION NEWS . . . 2529

SUBSCRIPTION RATES . . . 2530

SYMPOSIUMS

Muramyl Peptides as Modulators of Sleep, Temperature, and Immune Responses

Chaired by *L. Chedid*

Synthetic muramyl peptides: their origin, present status, and future prospects. Introductory remarks. *L. Chedid* 2531
Chemical structure and biological activity relationship of bacterial cell walls and muramyl peptides. *S. Kotani, M. Tsujimoto, T. Koga, S. Nagao, A. Tanaka, and S. Kawata* 2534
Immunological activities of muramyl peptides. *G. M. Bahr and L. Chedid* 2541
Induction of interleukin 1 by synthetic and naturally occurring muramyl peptides. *C. A. Dinarello and J. M. Krueger* 2545
Immunopharmacology of muramyl peptides. *K. Masek* 2549
Somnogenic muramyl peptides. *J. M. Krueger, J. W. Karaszewski, D. Davenne, and S. Shoham* 2552
Muramyl peptides in mammalian tissues and their effects at the cellular level. *M. L. Karnovsky* 2556

Cellular and Subcellular Basis of Myocardial Hypertrophy

Chaired by *N. R. Alpert and B. B. Hamrell*

Introduction. *N. R. Alpert* 2561
Mechanical factors affecting protein turnover in isolated rat hearts. *H. E. Morgan, B. H. L. Chua, D. Siehl, Y. Kira, P. J. Kochel, and E. E. Gordon* 2563
Expression of myosin heavy chains during thyroid hormone-induced cardiac growth. *A. W. Everett, P. K. Umeda, A. M. Sinha, M. Rabinowitz, and R. Zak* 2568
Physiological adaptation of the heart to pathological overloading. *L. Rappaport, B. Swynghedauw, J.-J. Mercadier, A.-M. Lompré, D. de la Bastie, J.-L. Samuel, and K. Schwartz* 2573
Merits and pitfalls in morphological assessment of cardiac growth. *K. Rakusan, B. Korecky, K. Sarkar, and Z. Turek* 2580
Rapid transient analysis of myosin cross-bridge kinetics in hypertrophied hearts. *G. Ringsgwandl, W. Motz, H. Meyrl, A. Schneider, K. Schwartz, and B. E. Strauer* 2585
Sarcomere shortening in pressure overload hypertrophy. *B. B. Hamrell and P. B. Hultgren* 2591
Determinants of energy utilization in the activated myocardium. *N. R. Alpert and L. A. Mulieri* 2597

Benign Prostatic Hypertrophy and Relevant Pharmacological Intervention

Chaired by *M. Caine and J. P. Hieble*

Etiology of benign prostatic hyperplasia and approaches to its pharmacological management. *J. P. Hieble and M. Caine* 2601
Clinical experience with α-adrenoceptor antagonists in benign prostatic hypertrophy. *M. Caine* 2604
Comparison of the α-adrenoceptor characteristics in human and canine prostate. *J. P. Hieble, A. J. Boyce, and M. Caine* 2609
Etiological considerations for the growth of stroma in benign prostatic hyperplasia. *M. G. Mawhinney* 2615
Mesenchymal-epithelial interactions as factors influencing male accessory sex organ growth in the rat. *B. L. Neubauer, K. L. Best, D. M. Hoover, M. L. Slisz, R. M. Van Frank, and R. L. Goode* . . . 2618

Inositol Trisphosphate

Chaired by *B. W. Agranoff*

Inositol trisphosphate and related metabolism. *B. W. Agranoff* . . . 2627
Phosphorylated derivatives of *myo*-inositol. *B. W. Agranoff* 2629

Formation and biological action of inositol 1,4,5-trisphosphate. *J. W. Putney, Jr., D. L. Aub, C. W. Taylor, and J. E. Merritt* . . 2634
Effects of lithium on phosphoinsitide metabolism in vivo. *W. R. Sherman, B. G. Gish, M. P. Honchar, and L. Y. Munsell* 2639
Phosphoinositide kinase activity and transformation. *M. Whitman, D. Kaplan, L. Cantley, T. M. Roberts, and B. Schaffhausen* 2647

MINISYMPOSIUM SUMMARY

Activation of basophils. *J. A. Grant, M. A. Lett-Brown, J. A. Warner, M. Plaut, L. M. Lichtenstein, M. Haak-Frendscho, and A. P. Kaplan* . 2653

Number 12. NOVEMBER 1986

FEDERATION NEWS . . . 2659

SYMPOSIUM SUMMARY

Renal functional derangements in hypertension. *B. G. Zimmerman, W. J. Arendshorst, G. F. DiBona, T. H. Hostetter, D. W. Ploth, and L. Raij* 2661

SYMPOSIUMS

Historical and Modern Perspectives in Neurophysiology

Chaired by *J. Trubatch*

The Columbian exchange: American physiologists and neuroscience techniques. *R. G. Frank, Jr.* 2665
The patch clamp is more useful than anyone had expected. *F. J. Sigworth* 2673
Nonclassical synaptic functions of transmitters. *B. Libet* 2678
Representation of movements and muscles within the primate precentral motor cortex: historical and current perspectives. *D. R. Humphrey* 2687
Central nervous system mechanisms of arterial pressure regulation. *M. J. Brody* 2700

Ion Transport Across Epithelial Tissues: New Insight from Single-Channel Measurements

Chaired by *D. C. Eaton*

Introductory remarks. *D. C. Eaton* 2707
Epithelial sodium channels: characterization by using the patch-clamp technique. *L. G. Palmer and G. Frindt* 2708
Regulation of single sodium channels in renal tissue: a role in sodium homeostasis. *K. L. Hamilton and D. C. Eaton* 2713
Potassium channels from chick lens epithelium. *J. L. Rae* 2718
Potassium channels along the nephron. *M. Hunter, K. Kawahara, and G. Giebisch* 2723
Chloride channel regulation in secretory epithelia. *R. A. Frizzell, D. R. Halm, G. Rechkemmer, and R. L. Shoemaker* 2727

Controversy in Pharmacology: Calcium and Hypertension

Chaired by *H. H. Draper and G. A. Robison*

Introduction. *H. H. Draper and G. A. Robison* 2732
Metabolic considerations and cellular mechanism related to calcium's antihypertensive effects. *D. A. McCarron and C. D. Morris* . 2734
Calcium metabolism in essential hypertension: relationship to altered renin system activity. *L. M. Resnick, J. P. Nicholson, and J. H. Laragh* 2739
Ca^{2+} regulation of vascular smooth muscle. *C. van Breemen, C. Cauvin, A. Johns, P. Leijten, and H. Yamamoto* 2746
The nature and role of disturbances in calcium metabolism in genetic hypertension. *K. Lau, D. Thomas, and B. Eby* 2752
The calcium requirement and factors causing calcium loss. *H. Spencer and L. Kramer* 2758

Design of Antitumor Agents Based on Mechanism of Action

Chaired by *A. D. Broom and R. E. Parks, Jr.*

Introduction. *A. D. Broom* 2763
Design of dihydrofolate reductase inhibitors from X-ray crystal structures. *B. Roth* 2765
Design of purine nucleoside phosphorylase inhibitors. *J. D. Stoeckler, S. E. Ealick, C. E. Bugg, and R. E. Parks, Jr.* 2773
Design and synthesis of multisubstrate analog inhibitors of one-carbon transfer reactions. *A. D. Broom* 2779
DNA strand scission by activated bleomycin group antibiotics. *S. M. Hecht* 2784
Role of iron in adriamycin biochemistry. *C. Myers, L. Gianni, J. Zweier, J. Muindi, B. K. Sinha, and H. Eliot* 2792

Trace Metal Transport in Hepatocytes

Chaired by *R. J. Cousins*

Trace metal transport in isolated hepatocytes. *R. J. Cousins* 2798
Mechanism of copper transport from plasma to hepatocytes. *M. J. Ettinger, H. M. Darwish, and R. C. Schmitt* 2800
Zinc uptake and metabolism by hepatocytes. *S. E. Pattison and R. J. Cousins* 2805
Iron uptake and metabolism by hepatocytes. *E. H. Morgan and E. Baker* 2810
The manganese(II) economy of rat hepatocytes. *V. L. Schramm and M. Brandt* 2817

MINISYMPOSIUM

Phenotyping of Macrophages, Dendritic Cells, and NK cells

Chaired by *G. Trinchieri*

Surface phenotype of natural killer cells and macrophages. *G. Trinchieri* 2821
Antigenic, functional, and molecular genetic studies of human natural killer cells and cytotoxic T lymphocytes not restricted by the major histocompatibility complex. *L. L. Lanier, A. M. Le, S. Cwirla, N. Federspiel, and J. H. Phillips* 2823
Mononuclear phagocyte activation: activation-associated antigens. *R. F. Todd III and D. Y. Liu* 2829

Number 13. DECEMBER 1986

ACKNOWLEDGMENTS . . . 2837
FEDERATION NEWS . . . 2838
BOOKS RECEIVED . . . 2839
SUBSCRIPTION RATES . . . 2840

SYMPOSIUM SUMMARY

Regulation of the cutaneous circulation. *J. M. Johnson, G. L. Brengelmann, J. R. S. Hales, P. M. Vanhoutte, and C. B. Wenger* . . 2841

SYMPOSIUM REPORT

Direct assessment of renal microcirculatory dynamics. *L. G. Navar, J. P. Gilmore, W. L. Joyner, M. Steinhausen, R. M. Edwards, D. Casellas, P. K. Carmines, L. B. Zimmerhackl, and S. D. Yokota* . . 2851

SYMPOSIUMS

Arterial Pressure and Body Fluid Homeostasis

Chaired by *J. E. Hall*

Introductory comments. *J. E. Hall* 2862
Relationship between body fluid volumes and arterial pressure. *A. W. Cowley, Jr., W. J. Barber, J. H. Lombard, J. L. Osborn, and J. F. Liard* 2864
Neural mechanisms in body fluid homeostasis. *G. F. DiBona* . . . 2871
Pressure diuresis mechanism in the control of renal function and arterial pressure. *R. J. Roman* 2878
Intrarenal mechanisms mediating pressure natriuresis: role of angiotensin and prostaglandins. *L. G. Navar, R. V. Paul, P. K. Carmines, C.-L. Chou, and D. J. Marsh* 2885
Regulation of sodium excretion by renal interstitial hydrostatic pressure. *J. P. Granger* 2892
Regulation of arterial pressure: role of pressure natriuresis and diuresis. *J. E. Hall, A. C. Guyton, T. G. Coleman, H. L. Mizelle, and L. L. Woods* 2897

Anaerobiosis, Lactate, and Gas Exchange During Exercise I and II

Chaired by *B. Chance and K. Wasserman*

Anaerobiosis, lactate, and gas exchange during exercise: the issues. *K. Wasserman* 2904
Metabolic properties of muscle fibers. *D. Pette and C. Spamer* . . . 2910
Metabolic control principles and ^{31}P NMR. *B. Chance, J. S. Leigh, Jr., J. Kent, and K. McCully* 2915
Muscular fatigue: effects of hydrogen ions and inorganic phosphate. *D. R. Wilkie* 2921
Lactate production under fully aerobic conditions: the lactate shuttle during rest and exercise. *G. A. Brooks* 2924
Continuous blood gas and lactate monitoring during exercise. *F. W. Schardt and M. K. Wiegand* 2930
Exercise-induced injury to skeletal muscle. *K. K. McCully* 2933
Energy metabolism in relation to oxygen supply in contracting rat skeletal muscle. *J.-P. Idström, V. H. Subramanian, B. Chance, T. Scherstén, and A.-C. Bylund-Fellenius* 2937
Effect of anaerobiosis on the kinetics of O_2 uptake during exercise. *B. J. Whipp and K. Wasserman* 2942
Balancing conflicting metabolic demands of exercise and diving. *P. W. Hochachka* 2948
Lactate during exercise at extreme altitude. *J. B. West* 2953

Modern Approaches to the Biology of Cholinesterases

Chaired by *S. Brimijoin*

Introduction. *S. Brimijoin* 2958
Immunochemistry of mammalian cholinesterases. *S. Brimijoin, Z. Rakonczay, and K. Mintz* 2960
Molecular biology of human serum cholinesterase. *B. N. La Du and O. Lockridge* 2965
Glycolipid membrane-binding domain of human erythrocyte acetylcholinesterase. *T. L. Rosenberry, W. L. Roberts, and R. Haas* . 2970
Primary structure of acetylcholinesterase: implications for regulation and function. *M. Schumacher, S. Camp, Y. Maulet, M. Newton, K. MacPhee-Quigley, S. S. Taylor, T. Friedmann, and P. Taylor* . . 2976
Molecular forms of acetylcholinesterases in Alzheimer's disease. *S. G. Younkin, B. Goodridge, J. Katz, G. Lockett, D. Nafziger, M. F. Usiak, and L. H. Younkin* 2982

MINISYMPOSIUM

Genetic Regulation of Cell Interactions and T Cell Recognition II

Chaired by *L. H. Glimcher*

Introduction. *L. H. Glimcher* 2989
T cell-activating protein on murine lymphocytes. *E. T. H. Yeh, H. Reiser, B. Benacerraf, and K. L. Rock* 2991
Regulation of class II gene expression in a murine pre-B cell line. *B. S. Polla, A. Poljak, S. Geier, S. G. Nathenson, J. Ohara, W. E. Paul, and L. H. Glimcher* 2995

INDEXES

Author . . . 3001
Subject . . . 3004

EMPLOYMENT OPPORTUNITIES

Included in advertising pages, each issue, except nos. 3 and 6

PUBLIC AFFAIRS

Insert included in each issue except nos. 3, 4, and 6
